  - PPA and Thailand Royal Police Academy

- Memorandum of Understands
- Scientific Roundtable Meetings
- International Conferences

#### 4. Some proposals for international cooperation in education and training between police universities/academies

1. At this conference, we also propose pleasurably with Chairman, Secretariat of ASEANPOL and one of our delegations will run for election to Host Nation for the third Policing Education Cooperation Conference between Asean Police Universities/Academies in the next year.

3. Encouraging police academies/ colleges in the regions to sign memorandum on police training and carrying out the exchange of lecturers and students between Asean police academies or colleges. In the future, we consider that Asean police colleges and academies should sign memorandum to recognize qualification of each country in order to exchange education. In this regard, it should have the interest and cooperation from the area of the Institute / School Police of some developed countries in the region such as Singapore Police, Royal Thai Police, and Malaysia Police and so on.

4. Based on the Vietnamese People's Police Academy in education and training in recent years, each course at the PPA must be covered and certificated with 'standard criteria' after our students graduate. There are seven basic points, including:

- Policing professional knowledge,
- Moral attitudes with their nation and citizen,
- English level with TOEFL's score band at 450-500,
- Information technology's skill,
- Shooting level,
- Martial art's skills, and
- Driving skills.

5. To encourage to establish police training centers of ASEANAPOL in years to come in order to organize the training for the police in the regional countries on preventing and combating non-traditional crime. We are welcome the support from dialogue countries to establish such centers in ASEAN countries.

6. To approve ASEANAPOL Secretariat, INTERPOL and ASEANAPOL in every country in the region to provide and distribute information all of non-traditional crimes and also transnational organized crimes for police academies and colleges in order to train police officers to respond these challenges

THANK YOU FOR YOUR ATTENTION
